----------------------------------	-------------------	------------------	--------------

Pre-approved budget adjustments reflect items that have been approved in advance of the 2026 Operating budget. The largest impact to net taxes relates to compensation agreements negotiated and approved. Other preapprovals impacting the base adjustments include the approval of the pound services contract for 2026, the hazardous waste contract, 2025 Hastings county cost adjustments, 2 hour free parking and growth and increased rebates from the Seniors Rebate Program.

This represents a net tax impact of \$3,385,000 or 2.45%

Contractual Service Agreements	Net Impact	303,800	0.22%
---------------------------------------	-------------------	----------------	--------------

Ensuring these increased contributions are made helps the City manage its infrastructure gap and ensure renewal and replacement funding will be available when required for this new infrastructure.

Debt financing increase is a result of the approved \$23.1M December 1st debt draw completed. Tax funded infrastructure included Herchimer Ave & Dundas St East Reconstruction (\$4.85M), North East Industrial Roads and Active Transportation (\$3.0M), Black Diamond Road servicing (\$9.5M) and Fire radios projects (\$1.1M).

Annualized / Elimination of prior year issues	Net Impact	- 0.00%
--	-------------------	----------------

Budget adjustments for annualized/ eliminated prior year issues relate to one-time budget issues or the impact of a full annual cost / revenue for operating items approved in a previous budget cycle. There are no adjustments for 2026.

Net Increase/(Decrease) to Parking Reserve	Net Impact	220,800 25.67%
---	-------------------	-----------------------

The net increase/(decrease) to Parking reserve represents the change in contribution to the Parking Reserve fund. In 2026 Parking services will transition from a small surplus to the parking reserve fund to an increase driven by increased parking rates. This increase is to ensure sufficient funding for parking study recommendations, most notably infrastructure renewal requirements and planned improvements.

This is a positive transition for this portfolio as annual operations for parking will now support long term capital requirements and provides for operation stabilization and enhancement of service in the future.

2026 BUDGET

SUMMARY OF BASE BUDGET ADJUSTMENTS**

BASE BUDGET ADJUSTMENT DESCRIPTION

Revenue - User fees	Net Impact	(2,142,200)	-11.83%
----------------------------	-------------------	--------------------	----------------

Revenue- user fee base adjustments reflect increases or decreases as a result of wastewater rate increases or adjustments in utilization. 2026 adjustments reflect increases in the wastewater rates established under the adoption of the 2026 rates and fees (Bylaw 2025-195). Rates have increased to ensure sufficient funds to cover operations as well as funding significant short and long term capital requirements.

Contractual Service Agreements	Net Impact	(38,200)	-0.21%
---------------------------------------	-------------------	-----------------	---------------

Contractual service agreement budget adjustments reflect items of a contractual nature; including compensation agreements and contracted service arrangements.

Contractual adjustments include contract increases for the Wastewater treatment plant operation, as well as a reduction from 2025 for Linear Environmental Compliance Approval (ECA) consulting.

Capital Financing	Net Impact	259,000	1.43%
--------------------------	-------------------	----------------	--------------

Financing related base adjustments include increased debt financing of the December 1st debt draw (\$23.1M) relating to wastewater specific infrastructure for Herchimer Ave & Dundas St East Reconstruction (\$650,000) and the Black Diamond Road servicing project (\$4,000,000).

Operating Revenue / Costs	Net Impact	(360,300)	-1.99%
----------------------------------	-------------------	------------------	---------------

Wastewater operating costs have decreased mainly due to updated development charge fee waiver policy as well as fleet cost reductions in the year.

Net Increase/(Decrease) to Sanitary Sewer Reserve Fund	Net Impact	2,271,500	12.54%
---	-------------------	------------------	---------------

The net increase/(decrease) to Sanitary Sewer reserve represents the change in contribution to the Sanitary Sewer Reserve fund. The annual operations for wastewater should result in a contribution to reserve fund allowing for a balance that supports long term capital requirements and provides for operation stabilization for one-time or unexpected expenditures. The increase in 2026 is in line with the long term financing strategy for wastewater which will allow for sufficient funding to be available for significant capital expenditures expected in the forecast period. This increase also considers the position of the Sanitary Sewer reserve fund and its target outlined in the City's Reserve & Reserve Fund Policy.

Net Increase/(Decrease) to Water Reserve Fund	Net Impact	1,723,700	8.75%
--	-------------------	------------------	--------------

The net increase/(decrease) to Water reserve represents the change in contribution to the Water Reserve fund. The annual operations for water should result in a contribution to reserve allowing for a balance that supports long term capital requirements and provides for operation stabilization for one-time or unexpected expenditures. The change in 2026 is in line with the long term financing strategy for water which will allow for sufficient funding to be available for capital expenditures expected in the forecast period. This adjustment also considers the current position of the Water Reserve Fund as compared to its target outlined in the City's Reserve & Reserve Fund Policy.
