

Pre-consultation for Planning Applications

Before submitting development applications, applicants are required to pre-consult with Planning Staff, by appointment, to ensure the applicant and the Municipality has a clear understanding of the purpose of the proposed application.

NOTE: Applicable fees for a pre-consultation may apply.

Planning applications include the following types of approvals:

- Consents;
- Minor Variances;
- Zoning Bylaw Amendments;
- Official Plan Amendments;
- Plans of Subdivision;
- Site Plans;
- Condominium; or
- Institutional, Commercial, or Industrial Uses;

NOTE: Depending on the nature of the proposal, some pre-consultations will be held with our Development Review Team (DRT). DRT meetings are available the first and third Thursday of every month. Conceptual site plans and drawings are due to City Staff 5 business days prior to the pre-consultation meeting.

Purpose of the Meeting

The purpose of the pre-consultation meeting is to identify the information and supporting documents required prior to processing a complete application as set out in the Planning Act. Pre-consultation does not imply or suggest any decision on the part of City Staff or the City of Belleville to either support or refuse the application. While we make every effort to ensure the information is complete and accurate, there may be items of clarification required or other supporting information that is discovered during the review process. The City of Belleville reserves the right to correct, modify and/or add to the information and materials as the process moves forward.

In order to be considered a complete pre-consultation meeting request, the following are required prior to a meeting being scheduled:

1. Completed Pre-Consultation Meeting Form (as attached);
2. Drawings/plans showing the proposal which should include the general location of existing and proposed buildings, structures and features including:

- Pedestrian and vehicular access;
- Parking and circulation;
- Location, widths, and names of all road allowances, rights-of-way, streets or highways;
- Easements, restrictive covenants affecting the subject lands;
- Location of all existing vegetation, natural features, watercourses, drainage ditches, slopes, including the location of any of such features on adjacent lands that may affect the contemplated application; and
- Services and utilities, including the location of connections at the property line(s)

Drawings/plans are to be provided in paper and digital form. Digital copies (in PDF format) can be emailed to planning@belleville.ca.

The applicant will be provided with a checklist within 10 business days of the pre-consultation meeting outlining the information and materials necessary to process the required planning application(s). The supporting information and materials specified in the checklist, along with the checklist itself, will be required to be submitted with the planning application(s) in order to be considered a “complete application” under the Planning Act.

Important: This form will be reviewed by the Approvals/Planning Department(s) at the pre-consultation meeting and will form part of a complete application. Staff may take up to 30 days to review the application and submissions in order to determine if the application is considered to be “deemed complete”. The applicant acknowledges that the application and any attached supporting documentation is collected and maintained specifically for the purpose of creating a record available to the general public. The applicant is responsible to notify the City of Belleville on any errors, omissions, or changes in the information contained below after the completion of the pre-consultation form. Personal information on this form is collected under the authority of the *Municipal Act*, as amended, and the *Planning Act*, as amended, and will be used for the purposes of processing this form.
